Innovative Solutions and Technology Breakthroughs in Construction & Building at Accompanying Programs and Conferences, Con-Build Vietnam 2008

When Con-Build Vietnam 2008, the 2nd International Trade Fair for Construction and Building – Machinery, Equipment, Materials, Vehicles, Technology & Services opens in Hanoi from 9 – 12 September, market leaders from around the world will present not only the latest products and services, but also share ground-breaking industry experience and know-how in the comprehensive Accompanying Program’s plenary tracks and conferences.

Lauded for insightful information and timeliness, these conferences and technical presentations are held in conjunction with the trade show, at Hanoi’s Vietnam Exhibition Fair Centre (VEFAC) in Giang Vo.

Technical Product Presentations

Already garnering great interest among industry players, this year’s sessions will focus on issues and areas impacting current building and construction concerns and trends around the world. Some of these include:

- ***Solutions and Technologies for Production of Industrial Sand***

Brought exclusively to visitors of Con-Build Vietnam 2008 by the renowned establishments of the ASTEC Group/M&H Industries, Sandvik Mining and Construction SEA Pte Ltd (Sweden), and Metso Minerals (Singapore) Pte Ltd, this session will highlight:

1. “Applications of Manufactured Sand in Ready Mix Concrete and RCC”
– A case study on the new technology and application of manufactured sand and aggregates in a hydropower dam project.
2. “Quarry Operations: Optimized Solutions and Benefits Towards a Safer, More Productive, More Profitable Process in Industrial Sand Production”
– An in-depth presentation of the advanced technical solutions, modern methods and equipment tailored for all aspects of quarry operations.

3. “Quality Aggregate Supply – Solution for Better Infrastructure Construction in Vietnam”
– An expose on the latest solutions, technologies in construction materials manufacture and supply, with reference to dam projects, highway projects and contracting jobs in Vietnam.

- ***Solutions for Conventional or Automated Basement Car Parks in Vietnam***

Drawing from a decade of innovative, tested solutions for basement parking requirements in high-rise buildings, this session offers a combination of ‘parking foundation’ solutions in the design and construction of basements, for faster, lower cost and minimized risk construction.

- ***Open Web Steel Joist (OWSJ) Systems***

This introduces an alternative, economical solution for floor and roof systems using lightweight steel. It features actual projects that illustrate the practical applications of OWSJ in steel and concrete construction, composite floor systems to reduce the use of concrete and reinforced steel without shoring, as well as hybrid buildings that incorporate both concrete and OWSJ framing.

- ***Crane Operations Safe Practices***

Jack Lee, the Vice President of Manitowoc Crane Care Asia Pacific, will be giving a presentation titled Safe Practices of Crane Operation on Thursday 11 May at 1130 am at Conference Hall 7 within the Exhibition Centre. The topics covered include common crane incidents and the causes as well as ways to prevent them. The talk will be in English with accompanying translation in Vietnamese by Nguyen Vinh Huynh.

Conferences

Synergistic conferences at Con-Build Vietnam 2008 includes:

- ***The 2nd Vietnam Drymix Mortar Conference***
– This series of expert lectures by The Southeast Asia Drymix Mortar Association (SEADMA) brings to light the most recent developments in drymix mortar technology and applications, including the advantages of sustainability and energy savings, creative possibilities for architectural, renovation, repair and refurbishment applications, and its durability.
- ***The Prefabrication of Concrete Products***
– Presented by IFF (Institute for Prefabrication Technology and Building Construction) and CST (Center for Construction Science Training and Technology Transfer), Vietnam’s Association of Concrete Industry. The spot light here is on the efficient, reliable and environment-friendly production of prefabricated elements and concrete products. Included are topics on various state-of-the-art concrete production, implementation of Safety and Health guidelines, and R&D in prefabrication innovations.

Attendance at all technical presentations and conferences are complimentary with preliminary registration at the Con-Build Vietnam Registration counter, Vietnam Exhibition Fair Center, Hanoi.

About MMI Asia

**MMI-Munich International Trade Fairs Pte Ltd
Singapore, Hong Kong, Taiwan, Shanghai, Mumbai**

Messe München International (MMI) is a leading trade fair organization, with six subsidiaries abroad - in Europe and in Asia - and with 66 Representatives serving 89 countries. MMI has a truly global network.

Its industry-oriented trade fairs extend around the world; from around 40 trade fairs for capital and consumer goods and key high-tech industries in Munich alone, which draw over 30,000 exhibitors from more than 100 countries and over two million visitors from more than 200 countries annually to other established fairs in Asia, Russia, the Middle East and South America.

MMI serves the Asia-Pacific region through **MMI-Munich International Trade Fairs Pte Ltd (MMI Asia)** in Singapore and its four strategic bases in Hong Kong, Taipei, Shanghai and Mumbai. MMI Asia presents 11 international-scale trade fairs in Asia. It also provides consultancy in professional exhibition and conference management to government bodies, international trade and promotion organizations, and trade associations. MMI Asia promotes global trade expansion by facilitating Asian participation in both MMI fairs worldwide and in its distinguished trade shows in Asia.
